Up to
50% less
supplies
than boxes

Up to
50% less
space
than boxes

SHIP AND SAVE.

Scotch™ Flex & Seal Shipping Roll helps you save on time, supplies and space so you can focus on what matters most – your business.

Fewer Packaging Supplies

Finding the right size box or mailer can be hard! They can be too small or too big, and you have to stock many different sizes so you can find one that fits your item well enough. Scotch™ Flex & Seal Shipping Roll conforms to the shape of your item to give you the right size package. This is great for small businesses; reduce your supplies and packaging time by using the tool that does the job of boxes, filler, & tape, all by itself.

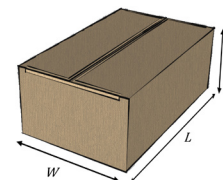

May reduce Dimensional Weight

Dimensional weight is an estimated weight calculated from the dimensions of a package. Shipping via actual weight is usually cheaper*. Shipping carriers will find each and calculate the shipping cost based on the higher value. Because Scotch™ Flex & Seal Shipping Roll conforms to your item it may reduce dimensional weight.

Conforms to Immobilize
& Help Protect

Scotch™ Flex & Seal Shipping Roll conforms to the shape of your item. This immobilizes your item to help protect it during the shipping process.

$$\text{Dimensional Weight} = \frac{L \times W \times H}{\text{Dimensional Factor}}$$
