

THE BEST WE HAVE EVER BEEN

539 • 534 • 530

IPG's new and improved 534, 539, and 530 products feature the same great paper and adhesive systems that you have come to rely on. Now those same great products feature a specialized release technology to give you a much wider application range increasing your ability to tackle some of the more complex applications.

Our new specialized release system has tripled our adhesion to backing to ensure that our flatbacks will not only stick to any substrate but will also adhere effectively to itself, especially in splicing applications!

FEATURES & BENEFITS

OLD FORMULA

NEW FORMULA

3x
A-B's

Improvements to the A-Bs (adhesion to backing)

Aggressive adhesive that bites into the substrate

Hand-tearable for ease of application

Easy and consistent unwind
