

## tesa® 4334 Precision Mask®

High performance paper masking tape for precise and flat paint edges

tesa® 4334 Precision Mask® consists of an extra-thin and strong paper backing coated with an acrylic adhesive.

The combination of the highly equipped backing material and the outstanding special adhesive formulation allows easy removability up to 5 months after application, with 4 weeks of UV resistance. This enables multiple working processes in only one covering process.

### Main Application

This tape is suited for almost all indoor paint works.

tesa® 4334 Precision Mask is applicable with water-based paints and lacquers. It even works with high-class spatula techniques.

It is suitable for a variety of common surfaces such as glass, aluminium, hard-PVC and wood.

It is perfect for indoor applications when a precise razor-sharp paint edge is needed.
