

## \*\* Instruction Sheet \*\*

Item NO. ET-377

Name: KRAFT PAPER TAPE DISPENSER

1. Place the roll of Gummed Paper Tape onto the dispenser.  
Thread the tape under the first white roller making sure the gummed side is facing down.
2. Pull the tape from under the white roller, over the top of the second and thread straight under the metal strip to reach the blade.

3. Remove the black padded roller and fill hot water about half way up the container.  
Place the roller back into the dispenser and turn to moisten.  
NOTICE: Do not over fill the container.

4. Pull the tape making sure it makes contact with the moistened roller.
5. Cut the tape by using the blade.

6. After use, discard the water and clean the container.
